# About Us

Mazi Saheli Charitable Trust (MSCT), headquartered in Mumbai, is committed to fostering sustainable development and bridging the gap between urban and rural communities. By focusing on healthcare, education, livelihood, and community upliftment, we strive to enhance quality of life, drive economic progress, and promote social well-being in underserved regions.

In healthcare, we adopt a holistic approach - expanding access to medical services, training and retaining healthcare professionals, raising health awareness, upgrading infrastructure, and fostering community participation. Our successful health campaigns have established an equitable and accessible healthcare system, leading to improved health outcomes for rural populations.

Education is a fundamental right, and MSCT is dedicated to ensuring equal learning opportunities for every child, irrespective of their background. We strengthen rural education by improving infrastructure, training teachers, providing learning resources, and encouraging community engagement to reduce disparities between urban and rural schools.

For community development, we implement integrated strategies addressing economic, infrastructural, healthcare, and social needs. By empowering individuals and communities, we foster sustainable growth that elevates living standards and creates a more equitable society. Investing in rural development is not just a moral imperative but also a vital contributor to national prosperity.

# Our Reach & Impact

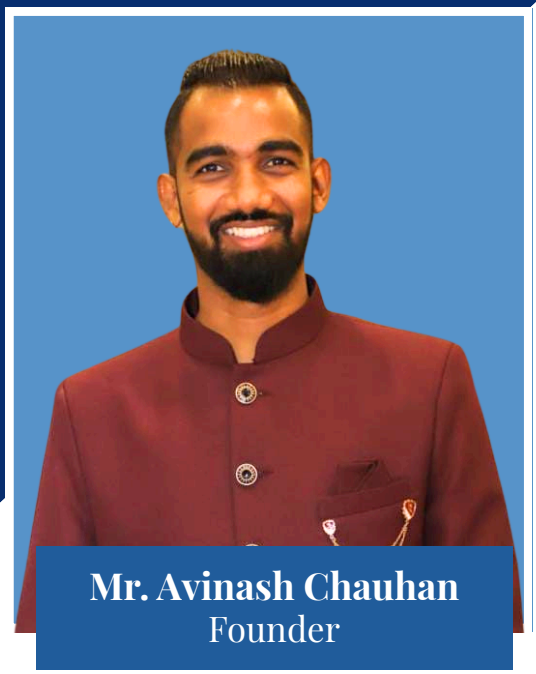
MSCT operates across multiple districts in Maharashtra - including **Thane, Palghar, Ratnagiri, Raigad, Satara, and Osmanabad -** serving diverse communities such as the general population & vulnerable groups

- **General Population:** Rural and semi-urban communities with limited access to essential services.

- **Vulnerable groups:** Migrant workers, tribal communities and other that face systemic barriers to healthcare, education, and livelihood opportunities.

MSCT implements transformative initiatives across health, education, livelihood, community development, and sports & training in the aforementioned districts. Through these programs, we empower underserved communities, foster sustainable growth, and create pathways for long-term prosperity.

# Founder Statement



**Mr. Avinash Chauhan**
Founder

At MSCT, we do not believe in charity - we believe in empowerment. True progress begins when communities are not merely helped, but equipped with the tools, knowledge, and opportunities to shape their own futures.

Our vision is rooted in a simple yet powerful truth: **sustainable change happens when people are supported, not dependent**. As I often say, "Development is not given, it is grown - through collaboration, trust, and the unwavering belief in a community's potential."

For too long, underserved regions have faced systemic barriers - limited access to education, healthcare, and economic mobility. Traditional aid may offer temporary relief, but lasting transformation requires something deeper: partnership. It demands listening, learning, and working alongside communities to co-create solutions that are rooted in their strengths, culture, and aspirations.

At MSCT, we are not just implementers - we are allies. We bring together changemakers, grassroots leaders, and institutions to build systems where education, entrepreneurship, and social equity thrive. Because when communities are empowered, they don't just survive - they lead.

This is not just our mission; it is a movement. A movement where dignity replaces dependency, where collaboration triumphs over charity, and where every community becomes an architect of India's growth story.

Join us as we build a future where empowerment is the foundation - and where every individual, family, and community rises, not by chance, but by **choice, courage, and collective will**.

**Together, we don't just dream of change - we make it possible.**

— Founder, Mazi Saheli Charitable Trust

# Vision And Mission

## Vision

Mazi Saheli Charitable Trust (MSCT) envisions a future where rural communities in India flourish with resilience, self-sufficiency, and shared prosperity. We believe that every individual, irrespective of their background, should have equitable access to education, healthcare, and opportunities that enable personal and collective growth.

Guided by this vision, MSCT is committed to fostering an inclusive and sustainable environment where rural populations are not only beneficiaries of development but also active participants in shaping their future. We aim to be a catalyst for transformative change, promoting community-driven progress, gender equality, and social empowerment.

Through relentless dedication, strategic interventions, and an unwavering belief in the potential of rural India, MSCT aspires to contribute to a future where these communities emerge as models of sustainable development, resilience, and inclusive growth. Together, we are working toward a brighter, more equitable tomorrow for rural India.

## Mission

The Mazi Saheli Charitable Trust (MSCT) is dedicated to empowering and uplifting rural communities across India by delivering essential services and resources. Our mission is to address critical gaps in these communities, fostering sustainable development and enhancing the overall well-being of individuals and families. Through focused initiatives in education, healthcare, women's empowerment, and community development, MSCT aims to drive meaningful and lasting change. By collaborating with local stakeholders and implementing innovative solutions, we strive to build resilient, self-reliant rural societies where every individual has the opportunity to live a dignified and fulfilling life.
