ABOUT US

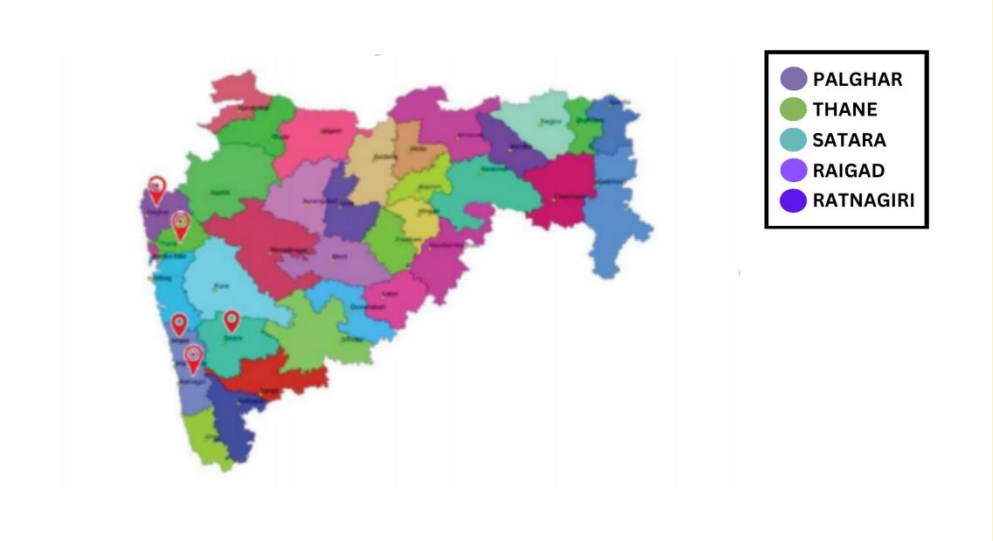

Mazi Saheli Charitable Trust (MSCT), headquartered in Mumbai, is dedicated to empowering crucial elements for sustainable development and reducing the gap between urban and rural communities. Focusing on healthcare, education, and community upliftment in these regions can lead to significant improvements in quality of life, economic progress, and overall social well-being. Strengthening healthcare in rural areas requires a multifaceted approach, including enhancing access to medical services, attracting and retaining healthcare professionals, raising health awareness, improving infrastructure, and involving the community. Through successful health campaigns, we have established a healthcare system that is fair, accessible, and capable of meeting the needs of rural populations, ultimately resulting in better health outcomes and a higher quality of life for everyone.

Mazi Saheli Charitable Trust firmly believes in every child's right to education and is committed to providing equal opportunities for all students, regardless of their location. Improving educational infrastructure, training educators, providing learning resources, and encouraging community involvement are key to bridging the educational gap between rural and urban areas.

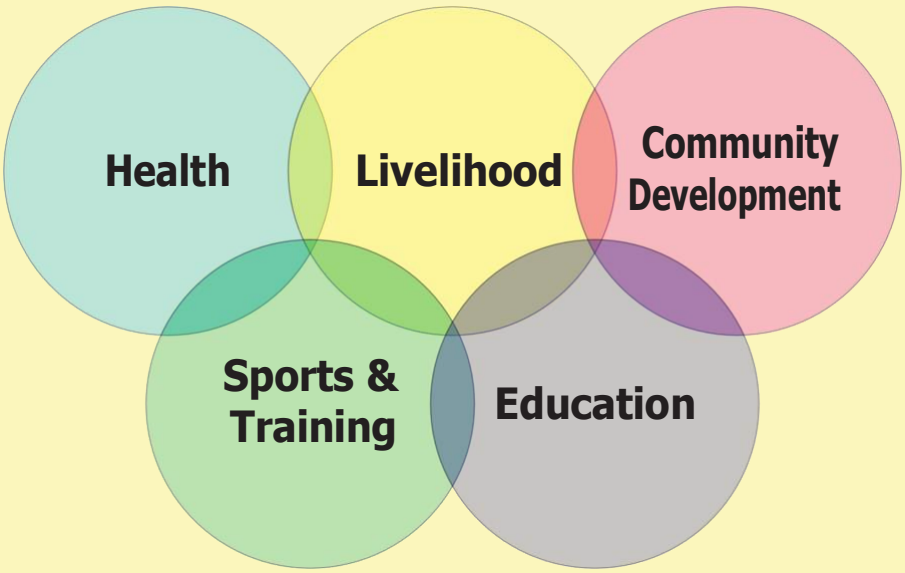

The advancement of rural communities requires a comprehensive approach that addresses economic, infrastructural, healthcare, educational, and social needs. By implementing holistic strategies that empower individuals and communities, we can promote sustainable development that enhances the quality of life for rural residents and fosters a more equitable society. Investing in rural development is not only a matter of social justice but also a crucial step towards national prosperity and stability.

ABOUT US

MSCT Works among the various community Groups & General Population, Bridge Population, High risk Groups Population in different districts in Maharashtra Like THANE, PALGHAR, RATNAGIRI, RAIGAD, SATARA & OSMANABAD.

MSCT also works for Health, Education, Livelihood, Community Development and Sports & Training in above mention districts

FOUNDER STATEMENT

Our respected founders have made it clear that empowering rural communities is not only a matter of social justice but also a strategic imperative for sustainable development. Through investments in education, healthcare and holistic development, we can harness the immense potential of rural areas, foster inclusive growth and create a more equitable society for all.

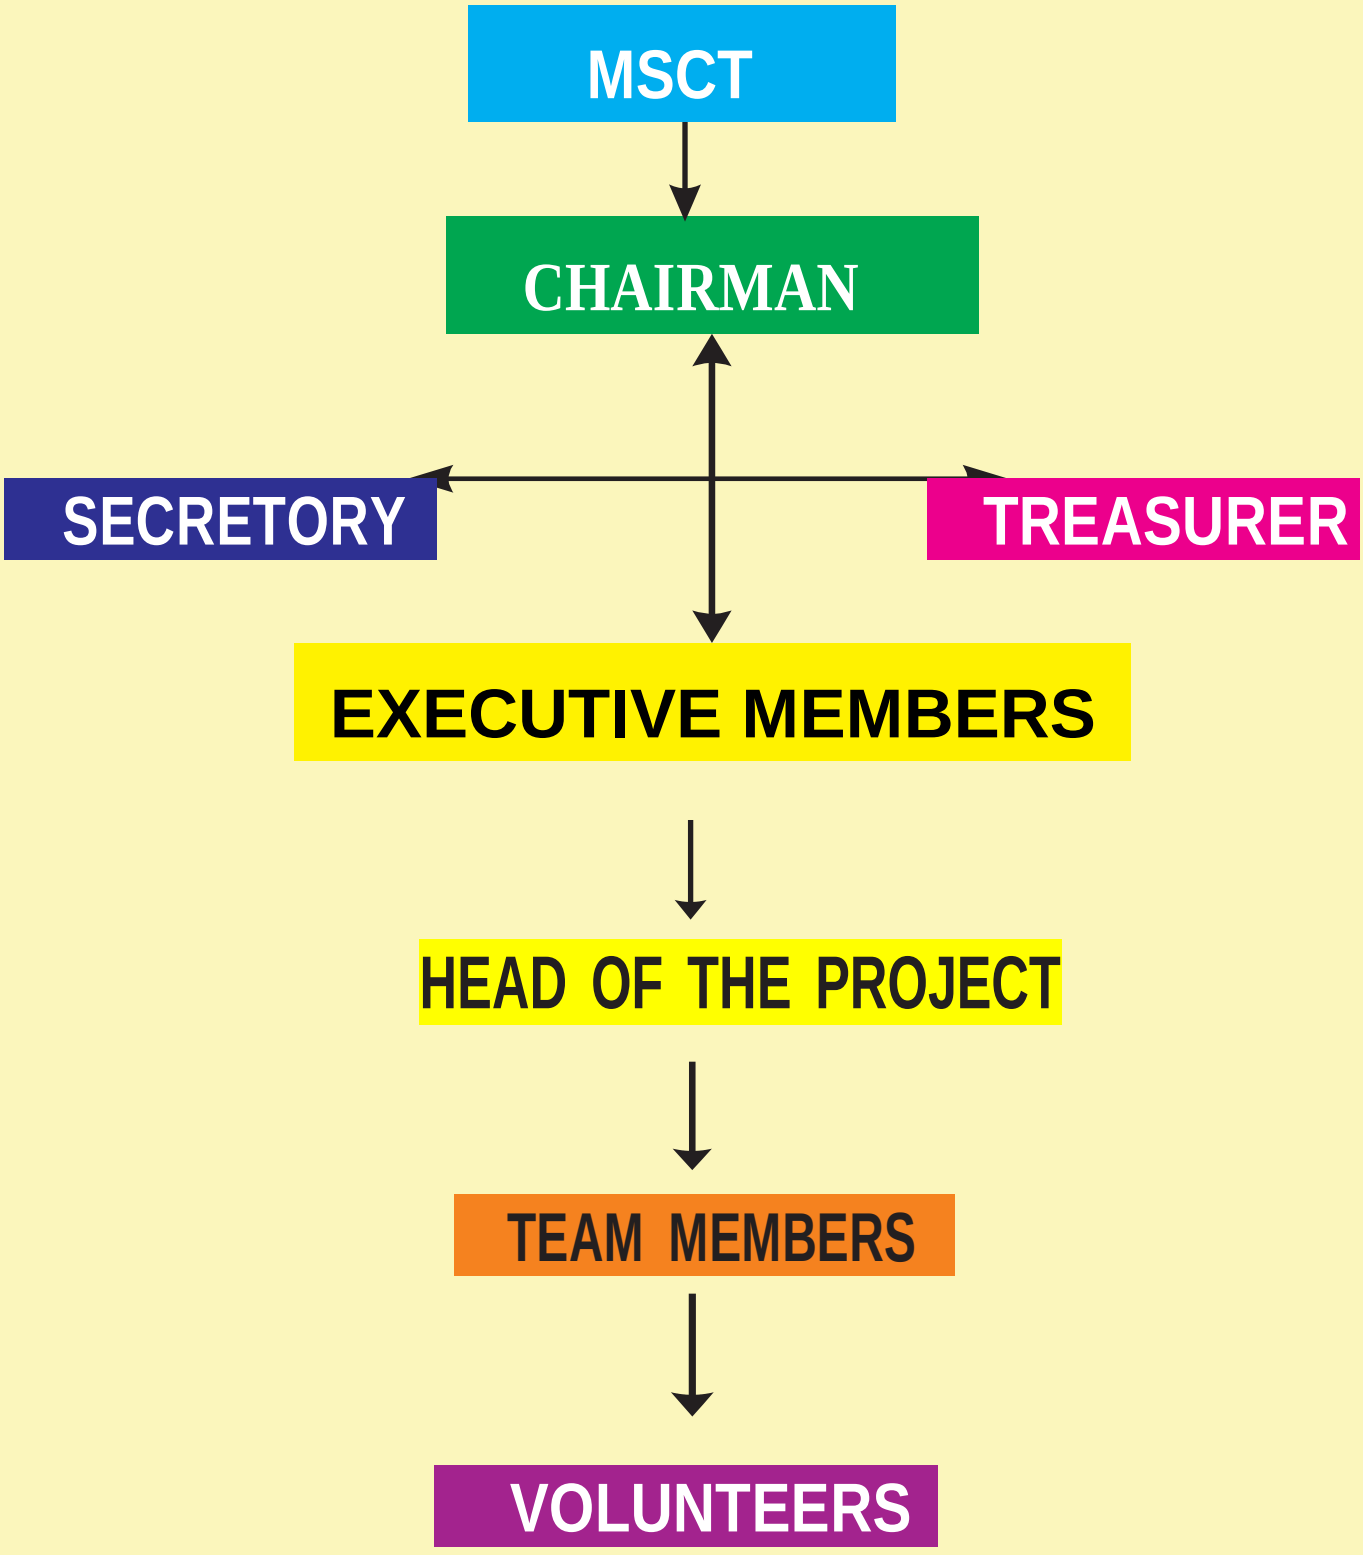

Rural development is significant as it addresses the unique challenges faced by rural areas, including poverty, lack of infrastructure, and limited access to basic services. It aims to improve the overall quality of life in rural communities, contribute to economic growth, and bridge the urban-rural development gap.

Education, entrepreneurship, physical infrastructure, and social infrastructure all play an important role in developing rural regions. Rural development is also characterized by its emphasis on locally produced economic development strategies.

MISSION

The mission of Mazi Saheli Charitable Trust (MSCT) is to empower and uplift rural communities across India by providing essential services and resources. Our objective is to bridge gaps in these communities, promoting sustainable development and enhancing the overall well-being of individuals and families. Through targeted initiatives, MSCT strives to create a significant positive impact in areas such as education, healthcare, women's empowerment, and community development. By collaborating with local stakeholders and leveraging innovative solutions, we aim to build resilient and thriving rural societies, ensuring that every individual has the opportunity to lead a dignified and fulfilling life.

VISION

Mazi Saheli Charitable Trust (MSCT) envisions a future where rural communities in India thrive with resilience, self-sufficiency, and a collective sense of well-being. Our vision is anchored in the conviction that every individual, regardless of their background, deserves access to essential resources, education, healthcare, and opportunities that enable them to lead fulfilling lives.

In pursuit of this vision, MSCT is committed to creating a sustainable and inclusive environment where rural populations are not only uplifted but also actively engaged in their own development. We aspire to be a catalyst for positive change, fostering a sense of community, equality, and empowerment.

MSCT is dedicated to realizing this vision through relentless efforts, strategic interventions, and a profound belief in the potential of every individual and community we serve. Together, we endeavor to build a future where rural India stands as a beacon of progress, resilience, and sustainable development.

GOAL

Mazi Saheli Charitable Trust (MSCT), headquartered in Mumbai, is dedicated to addressing the pressing needs and challenges confronting rural communities across India. Our primary objective is to narrow the existing gaps in these communities by implementing sustainable initiatives that foster comprehensive development.

Employing a multifaceted approach, MSCT endeavors to enhance living standards, educational opportunities, healthcare access, and overall well-being for individuals residing in rural areas. Our committed team collaborates closely with local communities to identify specific needs and tailor interventions that are culturally sensitive and contextually appropriate.

Our aim extends beyond providing short-term relief to instituting enduring positive changes that empower individuals, fortify community bonds and lay the groundwork for a promising future in rural India.

MSCT upholds values of transparency, accountability, and innovation in all our endeavors as we strive to effect meaningful and sustainable change in the lives of those we serve. Together with our partners and supporters, we envision a transformed rural landscape characterized by thriving communities and ample opportunities for every individual to realize their full potential.

- To set up project management systems and structures to initiate interventions with various community groups.
- To enhance awareness about health, education, livelihood, community development, and sports & training among various community groups.
- To increase access to health & referral services among various community groups.
- To create an enabling environment to reduce stigma & discrimination, sustain behavior change, and promote strong networking.

OBJECTIVES

MSCT provides training and conducts capacity-building courses to empower marginalized communities.

MSCT promotes healthy living and facilitates the prevention, early detection, and management of non-communicable diseases.

MSCT aims to reduce poverty by enabling poor households to access gainful self-employment and skilled wage employment opportunities, resulting in sustainable and diversified livelihood options for the poor.

MSCT aims to create zeal among students and faculty members towards sports. We organize training, coaching, and education in sports for everyone so that they can learn to keep themselves physically fit and enhance their interest in sports.

MSCT aims to erase disparities in education based on caste, gender, or socio-economic status.

MSCT provides instruction, teaching, and training in higher education, vocational, and professional education, and makes provisions for research, innovation, advancement, and dissemination of knowledge. We aim to create higher levels of intellectual and innovative abilities.

MSCT is improving the quality of people's lives in various dimensions, such as economic, social, environmental, cultural, and political.

ORGANIZATION UNDERTAKEN ACTIVITIES

Healthcare

Healthcare stands as an indispensable human entitlement crucial for sustainable development. Guaranteeing access to quality healthcare in rural regions is imperative for fostering equity, enhancing the standard of living, and nurturing economic and social progress. MSCT has orchestrated several successful health campaigns in the Palghar, Satara, and Ratnagiri districts. Our "Swaasthya Mela" initiative has significantly benefited the populace, particularly those undergoing surgeries, with dedicated expert medical professionals overseeing their care. Across eight villages, we provided free medicines to 762 patients and conducted comprehensive health check-ups for all individuals, bearing no financial burden. Notably, the collaboration with experts from Budhrani Hospital, Pune, led to the successful cataract operations of 12 patients, restoring their quality of life without discomfort.

The menstrual cycle, a natural and vital biological occurrence experienced by all women, has long been shrouded in stigma and taboo across cultures. MSCT courageously tackles menstrual health discussions openly and without shame. Through awareness programs spanning 12 villages, we emphasize its significance, debunking the taboo perception and highlighting its pivotal role in reproductive health. The distribution of 900 reusable cotton sanitary pads signifies our commitment to benefiting 900 women, all at no cost.

The paramount importance of healthcare in rural settings cannot be overstated. It serves as a linchpin for sustainable development, influencing health outcomes, economic stability, social parity, quality of life, and community advancement. By investing in and prioritizing healthcare services in rural locales, we ensure that every individual can lead a healthy, productive and fulfilling existence, thereby contributing to society's overall prosperity and stability

EDUCATION

Child education in rural areas serves as a potent instrument for breaking the cycle of poverty, advancing health and well-being, fostering gender equality, promoting community development, mitigating social issues, and driving sustainable development. Investing in the education of rural children not only transforms their own lives but also exerts a profound impact on their families, communities, and society at large. By prioritizing and bolstering child education in rural locales, we lay the groundwork for a future that is more equitable, prosperous, and sustainable.

Mazi Saheli Charitable Trust has launched "Gyaan ka Sagar," a highly successful campaign in Barhanpur village and two neighboring villages in Palghar district. Through this initiative, we have established libraries and catered to 88 students, providing them with a diverse array of books across various genres. Recognizing every child's inherent right to education, we persistently strive to implement child education programs, acknowledging their pivotal role in sustainable development, particularly in rural areas. Education not only fosters the individual growth of children but also underpins the overall socio-economic advancement of communities.

COMMUNITY DEVELOPMENT

Mazi Saheli Charitable Trust serves as a beacon of hope in a world where financial literacy often goes overlooked, dedicated to empowering women with the knowledge and skills needed to take control of their financial futures. Through dynamic programs and initiatives, the trust aims to dismantle barriers and equip women with the tools necessary to make informed financial decisions. The primary objective of Mazi Saheli's financial literacy program is to promote economic empowerment among women by educating them on fundamental financial concepts such as budgeting, saving, investing, and debt management.

The trust conducted its awareness program in various rural areas of the Palghar and Ratnagiri districts of Maharashtra. The first stop was a local community center in Dapoli (Ratnagiri), where women from diverse backgrounds eagerly gathered, curious about the day's events. The financial literacy sessions, facilitated by knowledgeable experts, covered practical tips and strategies for financial success. The journey of the program continued to spread to areas like Vikramgad (Palghar), Dabhadi (Dahanu), and Jawhar (Palghar).

The sessions included one-on-one counseling, offering personalized financial advice and guidance based on individual circumstances and goals. This approach ensured that women received the tailored support needed to address specific challenges and opportunities. Through educational videos, Mazi Saheli extended its reach beyond physical boundaries, empowering women from diverse backgrounds. The objective of building confidence and self-reliance in financial decision-making for women proved successful.

The impact of Mazi Saheli's financial literacy program is measured not only by the number of women reached but also by the tangible positive responses from those who gained knowledge and learned how to secure their finances through the program. By empowering women with the knowledge and confidence to navigate the complexities of the financial world, the trust paves the way for a more equitable and prosperous future for all. With unwavering determination, Mazi Saheli Charitable Trust marches forward, illuminating pathways to a brighter, more prosperous future for women everywhere.

EYE CAMP

In the heart of Satara district, nestled amid rolling hills and lush greenery, a community grappled with a silent epidemic preventable blindness. For generations, the people of Patan (Satara) endured impaired vision due to a lack of access to adequate eye care services. However, hope emerged with the arrival of a dedicated team of volunteers, led by doctors from Budhrani Hospital, Pune, and supported by committed individuals. Their mission, the "Vision for All" campaign, aimed to bring eye care services to every corner of Pathan, reaching those neglected by the healthcare system.

The campaign began with volunteers spreading awareness about free screenings and treatments. With the assistance of senior supervisors and their teams at primary health centers, the campaign reached remote villages, offering hope to those resigned to darkness. Dr. Subhash and his team conducted eye screenings meticulously, restoring sight to those with cataracts and other treatable conditions. The campaign's goal was to provide free cataract surgeries and affordable spectacles.

As word spread, support poured in from local businesses and community leaders, forming a united front against preventable blindness. The impact was profound, with families reunited, livelihoods restored, and hope rekindled. The campaign's greatest legacy was not just restored eyesight, but the spirit of compassion and solidarity it fostered.

As the sun set on Satara district, the "Vision for All" campaign stood as a beacon of hope, illuminating a path towards a future where no one would have to live in darkness again.

PROJECT KEY STRATEGIES

1. Strengthening Program interventions with various community Groups in the prioritized sites in Thane, Palghar, Ratnagiri, Raigad, Satara & Osmanabad.

2. Enhancing awareness about Health, Education, Community Development & Financial Literacy.

3. Increasing access to Health Services & Treatment by Health Camps.

4. Community Mobilization for ownership of project activities by Community Groups to undertake advocacy for reduced stigma and discrimination, and ensure sustainability in the same.

5. Strengthening program management and monitoring and evaluation capacities.

PROJECT IMPLEMENTATION

MSCT took steps to set up management systems, recruit staff and induct them and started implementing key strategies. As MSCT had been working for a decade in the Thane, Palghar, Raigad, Satara, Osmanabad & Ratnagiri and had been successful in mobilizing the community foraction against many issues affecting the members it could easily initiate steps and steadily build an effective enabling environment.

The MSCT had initially identified 6 Districts in (Thane, Palghar, Raigad, Ratnagiri, Satara, Osmanabad) that reported high Vulnerability, Illiteracy, lack of knowledge specially in health activity among grassroots People. The organization had used key community informants to identify hotspots and radiation zones in the proposedarea. MSCT also conducted a rapid assessment of the program needs.

COMMITTEES

1. **Clinic Advisory Committee (CAC) -**

The objective of this committee is to provide regular inputs to the project on the qualityof health services and to motivate the KP to develop their own support groups for regular check-up and monthly screening. The CAC comprises of KP representatives, HSWS core team, clinic team and important stakeholder.

2. **Drop In Centre Committee (DICC) -**

The objective of thiscommittee is to plan various DIC related activities and organizing capacity building programs on leadership for KP.

3. **Project Advisory Group (PAG) -**

The PAG is the core advisorygroup of all the committees and is the apex body in the committeestructure. The inputs and decisions of PAG are incorporated in the project.
